

Feel right at home

# Home Comfort Connection

Spring 2015 ~ Quarterly Newsletter

## Tips

• Fluctuating Spring temperatures can certainly put your older Home Comfort equipment to the test. If your furnace is older, and not quite up to snuff, upgrading will definitely save on your monthly energy consumption, and perhaps off-sett your new lease payment!

For more information, or to arrange a no-obligation home quote, call Enersure Home Comfort today, or visit our website at [www.enersure.ca](http://www.enersure.ca)

• When upgrading your Furnace, A/C, and/or Water Heater, make sure you choose Energy Star Qualified products... *Saving green feels good inside and out.*

• Enersure Home Comfort will NOT visit your home without you expecting us. However, there are people out

there that do go door-to-door for sales and home service contracts. Therefore, you should know your rights for if or when you sign a contract at your door. Learn about avoiding common door-to-door scams for water heaters, home heating, and other services. Visit this informative Ontario Government website to learn more.
